G. Duane Crutchfield
Ash Grove Cement West Inc.
P.O. Box 51
Nephi, Utah 84648

Dear Mr. Crutchfield:

Your notice to conduct mining related operations on your claims, BLM serial numbers, UMC 279003 and UMC 279004 in T. 12 S., R. 2 1/2 W., Sec. 25, has been received and accepted by this office. Your notice has been assigned case file number UT-054-91-17N. Please use this number in any future correspondence concerning this notice.

If you change your operation from what is described in your notice, please contact this office prior to the change. If your operations extend for more than one year, please advise us of the status of your mining related activity on the anniversary date of your notice.

From a phone conversation Rody Cox of my staff had with Terry Kerby of Ash Grove, it is our understanding that you will be building a 2000 foot road from the AL #2 claim to the southwest corner of section 25 to account for assessment work this fiscal year. Later you will be upgrading an existing BLM road that runs north through Township 13 S., Range 3 W., Section 13, Range 2 W., Sections 7 and 6. If our understanding is correct, please submit an ammendment to this notice explaining the details before you begin work on this part of the road. You are reminded that you could be held responsible for the reclamation of the roads to their original conditions upon completion of your operations under this notice.

Enclosed is a copy of the Standard Operating Procedures required by the Richfield District, House Range Resource Area. Please follow these guidelines as they pertain to your operations.

Because of the arrangement of the sections in this area, you are reminded that our acceptance of your notice is only effective in so far as BLM administered lands are involved. If you are not the land owner of the other sections, we recommend that you obtain permission from adjacent land owners and the state before you begin your operations.

A copy of your notice has been sent to the Utah Division of Oil, Gas and Mining (UDOGM); therefore, you will not have to file this notice with UDOGM. However, reclamation under this notice is required to conform to the standards of the Utah Mined Land Reclamation Act. Also, all mining claimants and operators that plan to use, store, or divert water are required by Utah statute to notify the Utah Department of Water Resources at:

1636 West North Temple
Salt Lake City, Utah 84180-1203

As required by 43 CFR 3809, Surface Management Regulations, reasonable measures must be taken to prevent unnecessary or undue degradation of public lands during your operations. Please notify this office upon completion of operations and reclamation, so an inspection may be conducted on the site.

Acceptance of your notice will not now, nor in the future, serve as a determination of the validity nor ownership of any mining claim included under your notice.

Thank you for submitting your notice. If you have any questions regarding this letter, please feel free to contact Rody Cox at (801) 743-6811.

Sincerely,

SIGNED

Rex Rowley
Area Manager
